YOUR APPLICATION MAY BE SELECTED FOR THE TELEUNDERWRITING PROCESS

What is teleunderwriting?

Teleunderwriting is the use of short telephone interviews as the primary means of gathering risk-related information to assess a customer's application for life assurance.

The interviews may be carried out instead of obtaining a report from a doctor or to clarify some details disclosed on the application form. The teleunderwriting process allows for immediate clarification of any medical questions and for a speedier decision-making process.

The interview is carried out by an experienced nurse on behalf of Aviva Life & Pensions Ireland Limited. All interviews are recorded and the information collected will form part of the application process. On completion of the interview, a report will be sent to you to be read, agreed, signed and returned to Aviva Life & Pensions Ireland Limited.

How long do teleunderwriting interviews take?

Typically a teleunderwriting interview will last 20 - 30 minutes.

When will the telephone call be made?

You will be contacted a few days after Aviva Life & Pensions Ireland Limited receives your application to arrange a convenient date and time for the interview.

Is there any preparation needed for the teleunderwriting interview?

To make sure you get the most from the interview and to help speed it up, take a couple of minutes to remind yourself of:

- Any medication you are taking, or have taken; the name of the medication, the dose and why you are taking it.
- Details of any past or present medical conditions suffered; any visits to a doctor, the reason for the visit and what medication you received (other than very minor ailments such as a common cold).
- Names and addresses of your doctors and specialists.
- Any family history of medical conditions.
- Your accurate height and weight.

Duty of Disclosure

The same obligation to disclose all material facts applies during the teleunderwriting process as when you are completing the application form. The interviewing nurse will explain clearly what information is required, and why.
